De la survie à la prospérité

Breakout Questions: Identifying First Nations Indicators for Determining Success for IA Clients

1. How would you determine the success of the Income Assistance Program within your communities? What does a successful program look like and how does it support your clients?
 - a. What identifiers for success would you use based on your definition of what a successful program looks like and the way in which it supports your clients?

Ex. Achieving goals, increasing professional development, etc.
