The Assembly of First Nations invites you to save the date for the upcoming Jordan's Principle Service Coordinator Gathering—*Rooted in Support, Rising in Strength*. This national event will bring together invited Service Coordinators from across the country to Treaty 6 Territory to connect, reflect, and celebrate their essential work with First Nations children and families.

Grounded in the values of care, connection, and community, the gathering will focus on key themes such as navigating complex systems, empowering families, and supporting the health and wellbeing of Service Coordinators. It will provide space for reflection, learning, and celebration of the unique and powerful work being carried out across each region.
