Support First Nations control of First Nation education and self-determined education approaches at many levels, including the conclusion of Regional Education Agreements, as sustainable models, (underpinned by funding comparable to provincial education systems) to close the education gap, leading to better outcomes. Ensuring robust and responsive education systems paves the way for access to higher education opportunities, all of which foster more prosperous communities. (Indigenous Services Canada)

- D. Some Nations have identified that none of the measures to date substantially address their control over education or the work required by Canada to meaningfully support their jurisdiction over education.
- E. There must be regional approaches to implementing measures in the National Action Plan respecting the diversity across Nations and regions.
- F. The settler colonial Crown must be accountable for recognizing Nations' sovereignty, their right to self-determination, and their right to establish and control their own education systems, as affirmed in Article 14 of the UN Declaration.

THEREFORE BE IT RESOLVED that the First Nations-in-Assembly:

1. Affirm there can be no meaningful *United Nations Declaration on the Rights of Indigenous Peoples Act* (UNDA) 2023-2028 Action Plan without regional-specific approaches to the interpretation and implementation of Measure 19 as determined by the self-determining Nations in those regions, which may include, among other things:
 - a. mechanisms to formally move away from the *Indian Act* and its application of sections 114-124 as a tool of power over First Nations governments and their education systems.
 - b. mechanisms for appropriate, comprehensive, and fully equitable funding that meets the needs, including historical redress, of First Nations lifelong learning systems based in First Nations-led and designed regional First Nations education models, frameworks, approaches and formulas.
 - c. mechanisms and arrangements that support First Nations exercise of education jurisdiction, including appropriate education funding options outside of the Regional Education Agreement program.
2. Call upon the Government of Canada to respect regional approaches/models to interpreting and implementing the UNDA 2023-2028 Action Plan Measure 19, as determined by Nations in those regions, and to negotiate honourably and in good faith, including to provide meaningful funding to support Nations' participation in negotiations.
3. Direct the AFN to engage with the federal government on the UNDA 2023-2028 Action Plan measure 19 to ensure alignment between Action Plan measure 19 and UNDRIP Article 14.
