

THE 2ND NATIONAL ASSET MANAGEMENT

An Asset Management Approach to “Closing the Infrastructure Gap”

Dates: March 7-9, 2023 • Hilton Lac Leamy • Gatineau, Quebec

TRADE SHOW EXHIBITOR INVITATION

It is with great pleasure that we invite you to the Assembly of First Nations (AFN) 2nd National Asset Management Conference and Trade Show: An Asset Management Approach to “Closing the Infrastructure Gap”.

The Conference will focus on discussion and updates on progress by First Nations on their work related to Asset Management Planning (AMP); sharing of successful AMP stories; networking and information sharing; and ongoing challenges with the operations and maintenance of assets.

It will provide a forum for networking for First Nations, First Nations organizations and industry partners on current and innovative AMP practices.

It is expected that the audience will be those interested in improving the ways First Nations asset management planning is understood, managed, and delivered. They will range from: Chiefs and Councils; Public Works Managers; First Nations Asset Managers; Water and Wastewater Operators and Technicians, First Nations organizations; individuals working in the field of asset management and capital planning; technicians; consultants, industry and academia; and, governmental and non-governmental entities interested in First Nations infrastructure issues.

Please note that there are a limited number of Trade Show booths available for the Conference. This is an excellent opportunity to showcase your asset management- and infrastructure-related products and interact with conference attendees. Note that booths are available on a first come, first served basis based on when the registration forms come in.

Come and join us in Gatineau as part of this important Conference!

Registration for the Trade Show is now open.

For more information, please email us at infrastructure@afn.ca
